PROFESSIONAL SUMMARY

Entry-level Web Developer with hands-on experience in WordPress, Elementor Pro, and custom theme/plugin development. Skilled in front-end and back-end development using HTML, CSS, JavaScript, React, PHP and MySQL. Experienced with CPT, REST API integration, and responsive UI/UX. Developed and deployed multiple projects improving performance and user engagement. Passionate about clean, maintainable code and agile teamwork.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, TypeScript, C++, C#, C, SQL, Flutter, PHP
- **Web Technologies:** WordPress, Elementor Pro, Gutenberg Blocks, HTML5, CSS3, React, Ajax, JSON, jQuery, Node.js, UI/UX, Bootstrap, Responsive Design, Testing
- **Tools and Frameworks:** Git, VS Code, Visual Studio, Android Studio, Figma, Bitbucket, Jira
- **Database:** MySQL, phpMyAdmin
- **Operating Systems:** Windows, Linux and macOS
- **Other Skills:** Debugging, Unit Testing, Agile Collaboration, Version Control

EXPERIENCE

- **WordPress & Frontend Development Intern** Aug 2025 – Sept 2025
ITXI Company, Hamra-Beirut, Lebanon
 - Developed WordPress projects using plugins, custom post types (CPT), taxonomies, Gutenberg blocks, themes, CLI, shortcodes, and widgets.
 - Built and tested React components and UI prototypes in Figma under team supervision.
 - Collaborated using Git/Bitbucket for version control and Jira for agile task management.
 - Applied TypeScript, Material Design principles, and responsive layouts to improve UI/UX.
- **Network and Internet Services Technician** June 2018 – Sept 2018
Dotspot Saleh, Nabatiyeh, Lebanon
 - Diagnosed and resolved network connectivity issues for home and businesses clients.
 - Installed and configured networks, gaming lounges, and secure company connections.
 - Monitored internet stations to ensure uninterrupted service.
- **Data Entry Specialist** Dec 2021 – Feb 2022
United Group Delivery, Nabatiyeh, Lebanon
 - Entered, validated, and reviewed waybills in a web-based system.
 - Updated order statuses to ensure timely payments and accurate records.
- **Sales Representative – Mobile and Computer Accessories** Sept 2022 – Nov 2023
Berjawi Smart Tech, Nabatiyeh, Lebanon
 - Managed wholesale orders, supplier communications, and daily invoicing.
 - Assisted customers with product selection, troubleshooting, and technical advice.
- **Mobile Repair Technician** Dec 2023 – Feb 2024
Berjawi Smart Tech, Nabatiyeh, Lebanon
 - Diagnosed and repaired mobile devices, including complex board-level issues.
 - Managed inventory, procurement, and wholesale support for repair stores.

PROJECTS

- **Freelance Project:**
Built a full-stack e-commerce platform using HTML, CSS, JavaScript (frontend), PHP, Laravel and MySQL (backend). Includes user registration, product browsing, and admin/manager roles for inventory and user management.

- E-commerce Website:**
 Built a full-stack e-commerce platform using HTML, CSS, JavaScript (frontend), and PHP/MySQL (backend). Includes user registration, product browsing, and admin/manager roles for inventory and user management. Still under active development.
<http://doctortechnology.ct.ws>
- Medical Center System: (Computer Science Graduation Project)**
 Built a full-stack health center management system using HTML, CSS, JavaScript (frontend), and PHP/MySQL (backend). Includes role-based access for patients, doctors, lab staff, and admins. Key features: appointment booking by specialty, lab test requests and uploads, doctor comments on results, and admin control over user management and system settings. Fully responsive and optimized for various devices.
<http://healthcenter.ct.ws>
- Deems Crochet Product Site:**
 Developed a responsive crochet product showcase website using HTML, CSS, JavaScript, and PHP. Features include dynamic product listing, category-based browsing, and a clean, user-friendly design tailored for a handcrafted brand. Designed to provide an engaging visual experience across all devices.
<http://deemscrochet.ct.ws>
- Personal Portfolio:**
 Designed and developed a personal portfolio website using HTML, CSS, JavaScript, and PHP to present web development skills, featured projects, and contact information. The site includes responsive design, smooth navigation, and a clean UI to highlight professional work and attract potential clients or employers.

- TIC-TAC-TOE Mobile Game:**
 This project is a classic Tic-Tac-Toe (X-O) mobile game developed using Flutter and Dart. It features a simple and interactive user interface, allowing two players to take turns marking spaces in a 3x3 grid. The app detects win, lose and draw scenarios and provides immediate feedback to the players.
 The game logic is handled entirely in Dart, leveraging Flutter's widget-based UI for smooth performance across Android and IOS devices. It serves as a beginner-friendly project to demonstrate core concepts like state management, UI building and user interaction in Flutter.
